

Cartridge Filters for Non-Donaldson Systems

16"-Diameter Conical For Braden Cartridge Systems

When replacing cylindrical/conical pairs in your Braden filtration system, choose from among four high-performance Donaldson filter media! These replacement elements are sized to fit Braden systems: 16" OD diameter at the large end and 26" long. They pair with our 26"-long cylindrical filters shown elsewhere on this website.

- Filter media choices to accommodate your specific operating conditions. (Reference our media match table for guidelines.)
- Constructed to ensure high filter performance: Donaldson Pleatloc™, and hot melt spiral beading, both inside and outside the filter.
- Galvanized metal endcaps and liners for long, corrosion-resistant life.

Conical Filters for Braden Systems

Part No.	Media
P03-0243	Duratek
P03-0244	Duratek/Spider-Web
P03-0245	Synthetic
P03-0246	Synthetic/Spider-Web
P03-0270	Synthetic/Spider-Web XP

Dimensions

Large end OD	16"/406mm
Small end OD	12 ³ / ₄ "/324mm
Length	26"/660mm
